

## **Readme for YAMAHA DS-XG Driver**

### **1. Choosing an appropriate INF file**

Please choose an appropriate INF file according to your system configuration.

Description of the INF files under ¥Inf directory is as follows:

(1) For DS-1S (YMF744B) device

Nlds1s0.inf

-> For a generic system.

Nlds1s0w.inf

-> For WHQL submission of a generic system.

(2) For DS-1E (YMF754) device

Nlds1e0.inf

-> For a generic system.

Nlds1e0w.inf

-> For WHQL submission of a generic system.

If you need further customization for your system, please contact your rep or your contact at Yamaha.

### **2. For Docking Systems**

For Docking systems that utilizes a dummy device to control the 2ndary CODEC, please copy the files under ¥Docker directory into the directory where other driver files reside.
